## Panel Profile

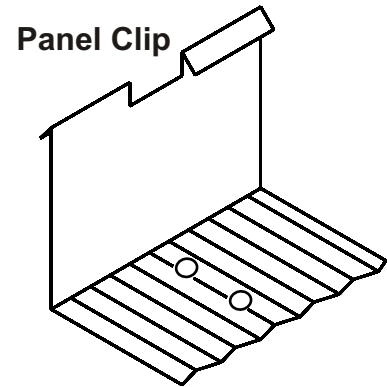

22 gauge steel available in minimum quantities.  
 Consult MPSI for costs and lead times.

Oil canning: Metal Panel Systems, Inc. purchases prime commercial grade light gauge metal which is manufactured to all industry accepted tolerances. "Oil canning" is an inherent part of light gauge cold formed panels and is not cause for rejection.

## Optional Surface Patterns\*

\*Pattern notes:  
 1. Tapered panels available smooth only.

Standard High Seam Tee-Clip
