FINISHES THAT MEET ANY DESIGN OBJECTIVE

Metal Panel Systems is one of the few single-source metal roof manufacturers with an in-house coil coating line and an exceptionally broad range of finishes, whether the design calls for a natural weathered appearance or bright, high-performance, full-strength fluorocarbon colors.

Custom Colors

We can match the color of virtually any material, including brick, wood and fabric. MPS offers short lead times, and our minimum custom-color order requirements are among the industry's lowest.
